KATALOG KOLORÓW SKINOVA STYLESHIELD

www.skinovaprotect.com

Ze względu na charakter większości prezentowanych odcieni – w tym kolory efektowe zmieniające tonację w zależności od kąta patrzenia, natężenia i rodzaju światła – przy każdym wariancie folii PPF publikujemy kilka ujęć danego koloru. Takie podejście pozwala rzetelnie oddać głębię barwy, przejścia tonalne oraz efekt zmienności (tzw. flip-flop), zapewniając możliwie najbardziej wiarygodne odwzorowanie finalnego efektu na pojeździe.

PPF-1419 BLUESTONE MAUVE
